

SK20W – 20 LITRE OIL ONLY SPILL KIT

Specification

Featuring oil-only absorbents, these spill kits are specifically crafted for use on sealed surfaces, small waterways or drains, and workshop floors.

These pads excel in proactive applications, such as placement under leaking machinery, ensuring only hydrocarbons are absorbed.

Packaged in convenient kits, they provide all necessary items for effective spill management when incidents occur.

Contents are packed in a hard wearing hi-vis bag and contain everything you need to address spills of up to 20 litres.
