

Technical Data Sheet | BB2T Overflow Tray | For use with BB2

The overflow/decanting tray crafted for the BB2 IBC spill pallet incorporates an 86ltr sump, adept at containing and averting leaks and drips from reaching the floor or entering drains. Upon reaching its capacity, any surplus liquid effortlessly channels into the main sump, thereby bolstering overall safety.

Product Specifications

External Dimensions (WxLxH)	520 x 530 x 520mm
Unit Weight	Approx. 5kg
Sump	86tr
UK Pack Size	16
Stacking Height	1947mm

Product Features and Benefits

- Attaches securely to the top edge of the BB2 spill pallet, creating a dispensing area to catch any leaks or drips during operations.
- Ensures safety by channeling excess liquid back into the main sump of the spill pallet, maintaining a clean and hazard-free workspace.
- Manufactured from medium density polyethylene.
- UV stabilised.
- Easy to clean, simplifying maintenance and ensuring a hygienic working environment.
